INSTRUCTIONS FOR FILLING IN THE FORM – READ CAREFULLY!

The following courses are taught only at Standard level (SL):
Norwegian B, French B, Mathematics: Applications and interpretation

The following courses are taught only at Higher level (HL):
Norwegian A Literature, English A Language and Literature.
It is still possible to register for SL examinations in these subjects.

Students who want another Language A, may study that language as a *school supported self-taught Language A Literature* (Standard level only). The school will allocate a supervisor to give guidance for the work to be done, however, additional language tuition is required. Contact the IB Coordinator for further information.

Languages B require some experience in the language, preferably three years of previous studies. Language B will not be appropriate for native speakers or those students with a good command of the language, as per the IB Language Placement Policy.

Please note that Norwegian B SL is **not** sufficient for admission to higher education in Norway.

Mathematics: Applications and interpretation SL is the alternative for those who prefer a more practical approach to mathematics.

Mathematics: Analysis and approaches SL is designed to provide a sound mathematical basis for those who plan to pursue further studies in such fields as mathematics, chemistry, physics, economics, and business administration.

Mathematics: Analysis and approaches HL is a demanding course for students expected to include mathematics as a major component of their university studies.

The Mathematics AA courses require a basis in mathematics corresponding to “Matematikk 1T” in the Norwegian programme for specialization in general studies.

If there are too few applicants for a course, it will not be available. Further notice about this will be given when admissions to the IB course have been decided.

Enclosures to be submitted with your application:

1. Diplomas and/or Certificates for secondary education.
2. Internal school reports and/or marksheets for current year's schooling (transcripts of mid-term grades from *vg1 studiespesialisering* or a corresponding programme).
3. References/evaluation of the applicant's suitability. Attestations and reports from heads of school, teachers or school counsellors should be sent directly to Trondheim Katedralskole. All information will be treated confidentially.

All documentation must be formally certified. Submit the completed form and supporting documentation to

**Trondheim Katedralskole
Munkegt. 8
7013 Trondheim**

In addition to submitting this form, you must apply at VIGO (www.vigo.no) The code for the IB Diploma Programme is STUSP2Z. You will need a valid MinID to apply at vigo.

If you are not able to apply through VIGO, you must contact *Seksjon elevtjenester og inntak* in Trøndelag county: inntak@trondelagfylke.no
